*FOR IMMEDIATE RELEASE*  
*SHATTUCK WINS PGA PRO CHAMPIONSHIP USING MAKEFIELD PUTTER*

---

Braden Shattuck of Glen Mills, Pennsylvania, won the 2023 PGA Professional Championship on May 3 at Twin Warriors Golf Club in Santa Ana, New Mexico. Now he will lead the Corebridge Financial PGA Team at the 2023 PGA Championship, May 15-21, at Oak Hill Country Club in Rochester, New York. The team comprises the 20 low scorers from the PGA Professional Championship.

Shattuck used the Makefield brand putter all 4 rounds. He changed to the Makefield brand a little over a year ago because of the unique engineering features of the putter. "I changed to the Makefield V-S putter because the ball remains longer on its' axis during the putt, resulting in far better putting results for me," Shattuck explained

To clinch the win Shattuck had to make a 10-foot double breaking putt, He made the putt and preserved his 1 stroke victory.

The 28-year-old Shattuck, who just became a PGA Professional in 2022 and was playing in his first PGA Professional Championship, will make his PGA Championship debut.

Makefield Putters, manufactured in Bensalem PA was created with an approach to solving some of the most common problems golfers experience on the putting green: wobbly putting strokes, distance and directional control, limited ball roll, and accessibility and availability. The team at Makefield Putters developed a system called Path of Inertia, which utilizes the weight, moment of inertia, and location of the center of gravity to produce a pure ball roll unique to Makefield Putters.
